Ashesh Singh

Data Analyst

+91-9140382381 — ashesh.bytes@gmail.com — LinkedIn — GitHub — Portfolio

Summary

Data Analyst with hands-on experience processing large-scale datasets, building interactive dashboards, and developing ML-based applications using Python, SQL, Power BI, and Tableau. Completed a 5-month internship delivering a production web application with measurable business impact. Skilled in translating raw data into actionable insights through automated pipelines and compelling visualizations.

Skills

Data Analysis: Python (Pandas, NumPy), SQL, MS Excel, Statistical Analysis
Visualization: Power BI, Tableau, Seaborn, Plotly, Recharts
Databases: MySQL, PostgreSQL, MongoDB
ML & AI: Scikit-learn, TF-IDF, Vector Search (Pinecone), Supervised/Unsupervised Learning
Tools: Git, GitHub, Jupyter Notebook, Streamlit, VS Code

Projects

Sales Data Analysis Dashboard | *Python, SQL, MS Excel* | GitHub **Jan 2025**

- Architected an interactive Sales Dashboard processing **80K+ rows** of transactional data, surfacing trends across **10+ KPIs** including revenue growth, regional performance, and product-level margins.
- Engineered **15+ dynamic filters and slicers**, cutting stakeholder report-generation time by **40%** and enabling real-time business performance exploration.
- Automated data cleaning pipeline using Python and SQL, eliminating **95%** of manual preprocessing and improving data accuracy by **30%**.

Movie Recommendation System | *Python, Streamlit, Scikit-learn, Pinecone* | GitHub **Mar 2025**

- Developed a content-based recommendation engine indexing **5,000+ movies** via TF-IDF vectorization and Pinecone vector search, achieving **~88%** recommendation relevance accuracy.
- Optimized feature engineering pipeline encoding **7 metadata fields** with Pandas and Scikit-learn, reducing cosine similarity computation time by **35%**.
- Deployed live Streamlit app on Render with OMDB API integration for real-time poster previews across **20+ categories**. View Project

Expense Tracker "Spendly" | *React, Node.js, MongoDB, JWT* | GitHub **Jan 2026**

- Built Recharts-powered analytics dashboard visualizing spending patterns across **8+ categories**, reducing manual budget review time by **50%**.
- Designed **12 RESTful API endpoints** with MongoDB Atlas achieving average response latency under **200ms**, enabling real-time financial data tracking.

Certifications

- **Generative AI Professional – Oracle (Jun 2025):** Generative AI concepts, prompt engineering, and AI-powered solution development with hands-on projects.
- **ML & AI – IBM (Aug 2025):** ML and AI fundamentals covering supervised/unsupervised learning, model evaluation, and real-world dataset projects.

Education

B.Tech in Computer Science and Engineering **Aug 2022 – Jun 2026**

Galgotias College of Engineering and Technology, Greater Noida, Uttar Pradesh
