Ashesh Singh

Software Developer

+91-9140382381 — ashesh.bytes@gmail.com — LinkedIn — GitHub — LeetCode — Portfolio

Summary

Software Developer skilled in building and deploying full-stack applications with the MERN stack, RESTful APIs, and cloud databases. Delivered a production client website during a 5-month internship, driving measurable business impact. Built and deployed multiple end-to-end projects including a full-stack rental platform with authentication and cloud image storage. Strong in DSA (Python, LeetCode Top 150) and writing scalable, maintainable code.

Skills

Languages: JavaScript, Python, Java, C++, HTML, CSS
Frameworks & Libraries: React, Node.js, Express.js, Bootstrap, Tailwind CSS
Databases: MongoDB, MySQL, PostgreSQL
DSA & CS Concepts: Data Structures & Algorithms (LeetCode Top 150, Python), OOP, REST APIs
Tools: Git, GitHub, VS Code, Figma, Netlify, CI/CD, Agile

Experience

Full-Stack Developer Intern **Mar 2025 – Aug 2025**
Skylark Edge · Remote *React, Node.js, JavaScript, MongoDB, MySQL*

- Built and deployed a complete full-stack business website for a client, driving a **30% increase** in online engagement and generating **15+ monthly leads**.
- Optimized React components and rendering logic, reducing page load time by **25%** across all devices.
- Designed and integrated RESTful APIs with MongoDB and MySQL backends, cutting content update time by **40%**.
- Collaborated on QA and deployment pipeline, improving customer inquiry response time by **20%**.

Projects

PGFinder – PG Rental Platform | *React, Node.js, Express.js, MongoDB, JWT, Cloudinary* | GitHub **2026**

- Built a full-stack MERN platform for PG/rental listings with JWT-based authentication and city-based search and filtering.
- Integrated Cloudinary for optimized image uploads and storage, and designed a responsive React/Tailwind frontend for seamless listing browsing.
- Deployed live application on Netlify with a RESTful API backend, handling end-to-end listing creation, search, and retrieval. View Project

Expense Tracker "Spendly" | *React, Node.js, Express.js, MongoDB, JWT* | GitHub **2026**

- Engineered a full-stack MERN application with JWT authentication and bcryptjs hashing, supporting **100+ concurrent user sessions** with secure role-based access control.
- Designed **12 RESTful API endpoints** integrated with MongoDB Atlas, achieving average response latency under **200ms**.
- Built Recharts-powered analytics dashboard tracking spending across **8+ categories**, reducing manual budget review time by **50%**.

Movie Recommendation System | *Python, Streamlit, Scikit-learn, Pinecone, OMDB API* | GitHub **2025**

- Built a content-based recommendation engine indexing **5,000+ movies** using TF-IDF vectorization and Pinecone vector search, achieving ∼**88%** recommendation relevance accuracy.
- Deployed live Streamlit app on Render with OMDB API integration for real-time poster previews across **20+ genres**. View Project

Certifications

- **Generative AI Professional – Oracle (2025):** Prompt engineering, generative AI architecture, and AI-powered solution development.
- **Full Stack Web Development – Udemy (2025):** End-to-end projects with HTML, CSS, JavaScript, React, Node.js, and databases.
- **React JS Expert – Udemy (2025):** Component-based architecture, state management, hooks, and API integration.

Education

B.Tech in Computer Science and Engineering **2022 – 2026**
Galgotias College of Engineering and Technology, Greater Noida, Uttar Pradesh
